

AI Interactive Flat Panel

A Full Range of Sizes

**VA-B
Series**

Experience the VA-B Series by Veltra — an advanced interactive flat panel designed to meet the evolving needs of AI-powered education and modern workplaces.

The VA-B Series, powered by an Octa-Core processor, 8 GB RAM, and 128 GB storage, delivers smooth multitasking and intelligent applications. With stunning 4K UHD visuals, 40-point multi-touch, and ultra-responsive interaction, it is ideal for classrooms, training rooms, and hybrid learning. Its fanless, ultra-quiet design ensures silent operation in noise-sensitive spaces. Rated Grade A for Energy Efficiency, it combines intelligent power management with reliable high performance to reduce electricity use and operating costs.

The panel supports seamless connectivity with HDMI, USB-C, LAN, Wi-Fi, and OPS slot for Windows integration. Built-in speakers, Android 14 OS, and AI features.

Each Veltra panel comes with free access to AI Note software for smart lesson creation, along with PHET interactive resources to enhance STEM learning. This powerful ecosystem empowers educators to deliver dynamic lessons, foster collaborative learning, and engage students like never before.

AI Note is a next-generation interactive whiteboard software designed for educators, students, and professionals. It features AI voice control, auto courseware and quiz generation, real-time translation, handwriting-to-text conversion, formula recognition, 3D modeling, and integrated PhET simulations. With mobile connectivity, multilingual support, and an intuitive interface, AI Note transforms teaching and collaboration into a seamless, intelligent experience—perfect for modern AI-driven classrooms.

Equipped with a high-performance Octa-Core processor, this interactive display ensures lightning-fast responsiveness and seamless multitasking—ideal for classrooms, training rooms, and collaborative business environments.

With Android 14 built-in, users enjoy a modern, intuitive interface, faster system performance, advanced privacy features, and compatibility with a wide range of educational and business apps. Multiple I/O ports support versatile connectivity options, enabling easy integration with external devices like laptops, cameras, and visualizers.

4K UHD Anti-Glare Display with Durable Glass Protection

Experience stunning visual clarity with a 4K Ultra HD screen that delivers vibrant colors and sharp details—ideal for both educational and business settings. The anti-glare technology ensures that content remains clear and visible even under strong ambient lighting or direct sunlight, reducing eye strain during long sessions. For added durability and user safety, the display is protected by Mohs 7-rated tempered glass, which resists scratches, impacts, and everyday wear. This makes it a reliable choice for high-traffic environments like classrooms and conference rooms.

PhET Interactive Simulations - Engaging Teaching Resources

Enhance STEM education with built-in access to PhET Interactive Simulations, developed by the University of Colorado Boulder. This platform includes:

- 168 simulations in science and math
- 124 language translations for global accessibility
- 3,600+ teacher-submitted lesson plans and activities

PhET makes complex concepts easier to understand through interactive, inquiry-based learning—ideal for classrooms looking to inspire curiosity and engagement.

Unleash the Power of Interactive Learning with AI Note

AI Note is a revolutionary interactive whiteboard software designed for educators, students, and professionals. It aims to transform collaboration and creativity in educational and professional settings. With AI features like voice operation, courseware and quiz generation, and real-time translation, alongside file previews, handwriting and formula recognition, PhET resources, and 3D modeling tools, AI Note provides a comprehensive solution for smart education and AI-powered classrooms.

Key Features:

- AI Voice Control
- AI Courseware Creation
- AI Quiz Creator
- AI Real-time Translator
- Instant File Previews
- Handwriting-to-Text Converter
- Formula Recognition
- Interactive PhET Resources
- 3D Modeling Tools
- Mobile Connectivity
- Multi-language Support
- User-Friendly Interface
- AI Dialogue & Q&A
- AI Flashcard Generator
- AI Guide Creator
- AI Summary Tool
- AI Lesson Planner
- AI Question Generator
- AI Text-to-Visual Converter
- Smart Recognition
- Advanced Multitasking
- AI Note Whiteboard Integration
- Advanced Formula & Graphing
- Intelligent Handwriting Recognition
- Lesson Resource Management
- Interactive PhET Simulations
- Dynamic Object Editing
- 3D Resource Management
- Integrated Browser & Search

Veltra VA-B Series		VA-B65	VA-B75	VA-B86
Display Specification
